

Hello. I'm Jordan Allen.

E: jrdnallendev@gmail.com

P: 0468 897 142

Junior full-stack developer and aspiring UI designer with a background in graphic design and a keen interest in the way people interact with technology. I strive to seek out opportunities to bring creativity and new perspective to projects that deserve to be exciting, enjoyable and accessible. I am constantly on the lookout for new inspiration and technologies to enable creativity and usability in my work. Simply put I love to take something ordinary and make it exciting and usable.

Experience

2023 - PRESENT

JUNIOR SOFTWARE ENGINEER
ELEMENT ENGINEERING | FULL TIME

A client-focused position, I collaborated with cross-functional teams to deliver high-quality software solutions for a leading global bike manufacturer SRAM. Developing and integrating new features, maintaining CI-CD pipelines and communicating with key stakeholders to ensure optimal and consistent product performance. Additionally, I supported the internal R&D team in creating innovative in-house SaaS solutions and to support our firmware and electronics teams.

2023 - PRESENT

INSTRUCTIONAL ASSOCIATE
GENERAL ASSEMBLY | FULL TIME

Working closely with a senior instructor and a full time software engineering immersive cohort. Aiding in managing over 30 students and providing technical feedback on full stack homework and projects. Covering HTML, CSS, JS, Python, React, node.js primarily

2018 - 2023

ONLINE/INSTORE SALES
JB-HI-FI | FULL TIME

As part of a two person live chat team to provide timely/accurate sales assistance and customer support to the entire country serving over 130 customers per day for Australia's largest tech retailer.

2014 - PRESENT

GRAPHIC DESIGN
FREELANCE

Creating advertising material both digital and print for one of Perth's premier event providers. Liasing with clients to achieve cohesive, effective design under tight deadlines for over 15 live music events.

SRAM AXS - WEB 

A dashboard including
power meters, tire pressure
sensors and electronic
shifting for bikes.

REACT, REDUX, DJANGO
